Environmental Policy

We, MS Supply Chain Solutions (Thailand) Ltd. (MSCST) one of Mitsui Soko groups of companies who provides the supply chain, logistics services and consulting, warehouse, transportation, Customs Clearance and Freight Forwarder.

As part of corporate social responsibility, MSCST has actively made an effort to incorporate green management into our business policy by contributing to society through logistics business. In order to promote environmentally conscious business activities, and preserve the ecosystem to gain further trust from society, we shall;

1. Execute all company business processes to comply with applicable legislations of Thailand, and other requirements to which MSCST subscribes.
2. Commit to continual improvement of environmental management and pollution protection in every aspect of our operations to conduct less environmental impact and curb the global warming by the following methods;
 - Promote energy efficiency through maintenance and inspection of facilities and equipment, and introduction of energy-saving from vehicles in order to reduce CO₂ emission.
 - Promote proper treatment of waste and recycling.
3. Set up and review objectives and target, including programs for continual improvement in term of environment protection and ensuring safety & health of the employees working under them.
4. Educate on EMS to all employee levels including people who work under control of MSCST to cultivate in environmental awareness for continual improvement.
5. This policy shall be relayed to both employees and interested parties and will be publicly published, such as on our homepage. All suggestions and participations of both employees and stakeholders shall be considered as well.

Mr. Jun Funatsu

Managing Director
